Cargo Lid™ Lock

What's Included

Cable
Cable Head
Button 1
Locking Port
Dials
Button 2
Guide Point
Cable Port
Reset Button

To Unlock

1. Turn the Dials to the preset opening combination, 0-0-0-0, aligning the numbers with the Guide Point.
2. Press Button 1 and pull the Cable out from the Locking Port.
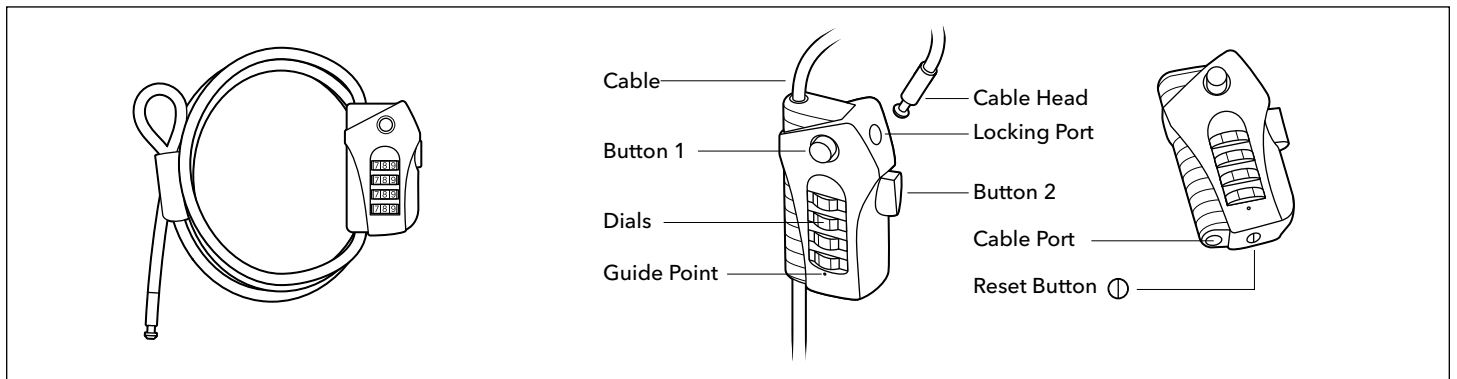

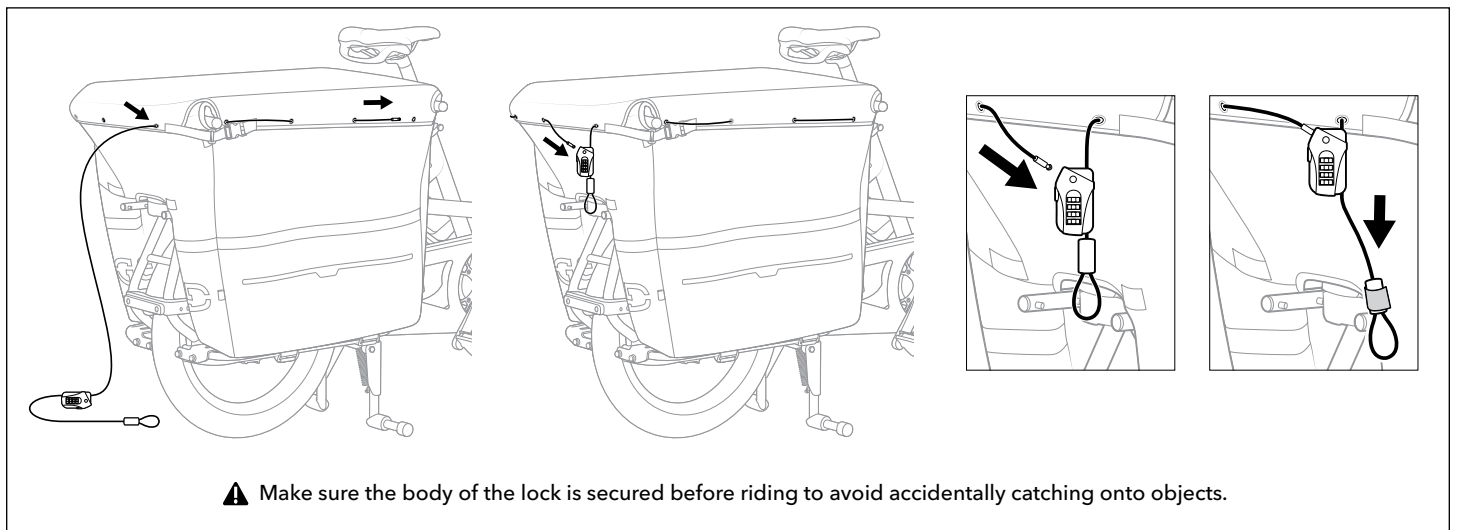

To Set Your Own Combination

Tool required: Flat head screwdriver (not included)

1. Turn the Dials to the preset opening combination, 0-0-0-0. Align the numbers with the Guide Point.
2. Press Button 2 until you hear a click.
3. Push in and rotate the Reset Button 90 degrees counter-clockwise with a small flat head screwdriver.
4. Turn the Dials to your own desired combination.
5. Rotate the Reset Button 90 degrees clockwise back to its original position.
6. Press Button 1 to pop Button 2 out.
7. Record your combination and keep it in a safe place for future reference. Your lock is now ready to use with its new combination.

To Lock

1. Push the Cable Head into the Locking Port until a click is heard.
2. Firmly press Button 2 until a click is heard.
3. Scramble the Dials randomly before leaving your bike.

How to Use with the Cargo Lid *The Cargo Lid is an additional cover that is included with the Storm Box*

⚠ Make sure the body of the lock is secured before riding to avoid accidentally catching onto objects.
